PRICE THREE CENTS

SEEKING 2,000 TO HELP GATHER COUNTY'S CROPS

The Adams county office of the Pennsylvania State Employment Service today was seeking 2,000 countians who want to work during the annual fruit and vegetable season.

E. A. Crouse, manager of the local office on Baltimore street, said that a force of at least 2,000 will be needed to handle the work. Last year approximately 3,000 took part in the cherry harvest, and 2,500 were placed in processing plants in the county.

Workers will be needed to thin fruit trees, harvest cherries, peaches and apples as well as tomatoes, peas and other farm crops, Crouse noted. In addition workers will be needed in the various processing plants.

To Use County Help First

Those planning to help were asked by Crouse to visit the local PSES office as soon as possible. There Ronald Baitzler, farm placement interviewer, or any of the other interviewers, will take the names and addresses of those seeking work and will list the type of work they seek.

Lists will then be made and as orders for workers are sent to the PSES office, the workers enrolled will be called on a first come, first served basis.

Every effort will be made to give work to Adams countians in the annual food harvest, Crouse said. Only after the list of countians is exhausted will the local office seek workers from other counties to help with the harvest.

"Teddy" Roosevelt, III, Wants "Greater Pennsylvania Week"

Theodore Roosevelt, III, secretary of the Pennsylvania Department of Commerce, and 1950 Pennsylvania Week State Chairman Joseph C. Feagley, vice president of the Armstrong Cork company, urged chairmen of the East Southcentral regional Pennsylvania Week committee to make this year's observance "the biggest in the history of the observance." Edmund W. Thomas, chairman of the East Southcentral region, presided at the sessions.

Big State Feature

Mr. Roosevelt said that Pennsylvania Week is an important highlight of his department's work. The technicolor film of last year's observance for which he was the narrator, was screened during his talk.

The secretary said that Pennsylvania Week is "snowballing" throughout the state, and attracting wide attention throughout the nation. Texas plans a singular observance and has asked Pennsylvania how to do it.

Mr. Feagley said the "burden and responsibility for the success of the observance rests upon the shoulders of the county chairmen. It is a grassroots proposition. The people make it a success. Chairmen must show the initiative and recruit teams of cooperative workers to exploit their county programs."

News Briefs

Washington, May 13 (AP)—A plan to give employers a government bonus for keeping workers employed beyond the 65-year social security retirement age is gaining favor. Secretary of Labor Tobin has just endorsed the idea. It was proposed to Congress two months ago by Harvard Economist Sumner Slichter. The problem is to keep men 65 or over at work when they want to keep their jobs, even though they could retire on government and private pension plans at age 65.

Pittsburgh, May 13 (AP)—An ailing druggist laid down a newspaper picture of a girl's death leap and plunged to his own death Friday from the Wilmut street bridge. He was Elmer W. Haggerty, 46, of Beechview. His family said he had been ailing for some time. He was a partner in John's drug store in Beechview.

Harry Haney, 25, a street car operator, saw the jump while driving across the bridge which leads from the Boulevard of the Allies into Schenley Park.

HOPES DIMMER ON RR STRIKE

Chicago, May 13 (AP)—Hopes of an early settlement of the crippling railroad strike appeared dimmer today as the four-day walkout by locomotive firemen cut deeper into the nation's economy.

There had been earlier reports that the rail union had offered new proposals designed to bring peace with the four truck carriers.

But Chairman Francis O'Neill, Jr. of the National Railway Mediation board apparently squelched the report. After a meeting last night with representatives of the four big railroads involved in the strike, he said:

"They're just as deadlocked now as they were at the start of the strike Wednesday morning."

O'Neill said there had been no new offer by David B. Robertson, president of the striking Brotherhood of Locomotive Firemen and Enginemen. "I just hope the strike doesn't get to be a slugging match," O'Neill added.

As peace efforts apparently hit a snag, the number of jobless mounted to nearly 200,000. At the same time, a railroad spokesman in Los Angeles said that firemen are to strike against a fifth railroad—the Union Pacific's Los Angeles to Salt Lake City run.

There was no immediate confirmation of the report by Brotherhood officials in Chicago. A union official in Cleveland said he had not heard of the proposed walkout.

Donaldson Stands Firm On Orders

Washington, May 13 (AP)—Postmaster General Donaldson stood firm today on the cuts he has ordered in postal service, saying complaints against the action were inspired by the Letter Carriers Union.

The union promptly fired back with a statement accusing the cabinet officer of trying to shift the blame for his own "hasty ill-considered" action to Congress.

In a 3,500-word statement yesterday, Donaldson said the department has received many complaints about the service cutbacks he ordered last month.

"A large percentage of these appear to have been inspired by the officers of the National Association of Letter Carriers," he added. Donaldson said the AFL carriers' association and "others" have made "erroneous statements and specious arguments" about the service cuts. These, he said, "have caused considerable confusion. I do not feel that the curtailments in service will greatly inconvenience any considerable number of our citizens," his statement declared.

At the close of the program about 600 went to the cafeteria where light refreshments were served by the cafeteria staff. These refreshments were donated by Bankert's restaurant and Feaser's Dairy.

Johnny Knox, league president, and Charles Lightner, manager of the title winning G. L. Broom garage team last year, will raise the American flag and league title pennant.

The Gettysburg high school band, under the direction of Edwin Longacker, will play several selections prior to the opening ceremonies and will play "The Star Spangled Banner," while the flag is being raised.

Games carded for Tuesday will find the Eagles versus the Elks at 7:15 while the night game will find the VFW against the Broom garage-men.

Other games listed for the week are: Wednesday, Texas Lunch vs. Stanton Legion, 7:15, and Moose vs. Lentz Legion; Thursday, Elks vs. VFW, 7:15, and G. L. Broom garage vs. Texas Lunch.

League rules adopted this year will find favor with fans. Penalties will be inflicted if games do not start promptly while the second game of the evening will start exactly 12 minutes following the conclusion of the opening game.

A meeting of the league will be held Monday evening at 7:30 o'clock at the Moose home to complete plans for the season.

The above arrangements are due to the heavy card facing the Warriors next week. On Tuesday Delone will be played here and on Thursday a return game is listed for McSherrytown.

Eastern League

(By The Associated Press)

The Wilkes-Barre Barons, who only yesterday stood at the top of the Eastern league, headed home today a lowly fourth. Nineteen-year-old Dick Carmichael sent the Barons skidding last night by pitching the Hartford Chiefs to a 4-3 win. Binghamton took over first place by whipping Elmira, 4-2.

Utica downed the Williamsport Tigers, 4-3, at Utica and gained a second-place tie with Hartford.

The Albany Senators made a clean sweep of their three-game series with Scranton by swamping the last-place Miners, 7-1. The three-hit pitching of 20-year-old Harry Weakley boosted the Senators into fifth place.

All of the scoring in the game came in the first inning. Coach Bud Ecker's Bubblers tabbed four runs on three safeties, a walk and an error. Newville came right back with three runs on two errors, a pair of hits and a wild pitch.

Paul Gooding and Drumgold formed the winning battery while Mowery and Jones worked for Newville.

KETTERMAN IS SPRINT VICTOR

Tom Ketterman, Gettysburg college sprint star, won his heat in the 100-yard dash of the trials held Friday afternoon in connection with the 38th annual Middle Atlantic meet being held at the University of Delaware. Ketterman was clocked at 10.6.

LaSalle college became the favorite by qualifying 10 men for today's finals.

The preliminaries, held in six events, were run off in a steady rain but the track remained fast.

Close on the heels of the Explorers from Philadelphia were Lafayette and St. Joseph's of Philadelphia with seven and six qualifiers, respectively.

All of the defending champions in contention in the Middle Atlantic Friday remained in the running, although it was a dark horse from Swarthmore who captured the fancy of the crowd.

Bill Battin, running in the third heat of the 880-yard run, went down in a bad spill at the first turn but picked himself up and made up a 30-yard deficit to qualify for the finals.

Interstate League

(By The Associated Press)
It took a lot of doing, but the Hagerstown Braves have finally gone down to defeat.

The Lancaster Red Roses edged the Braves last night, 7-6, in eleven innings to halt a 13-game win streak that started with the opening of the Interstate Baseball league. The win was Lancaster's second in 12 games.

The Braves broke a 3-3 deadlock in the top half of the 11th inning with a three run outburst. But Lancaster came back with a four-run rally, scoring the winning runs before a man was retired.

Another streak was broken — a losing one — as the Sunbury Athletics defeated the Trenton Giants, 7-6. The lead changed hands four times, before the Athletics pushed across the winning run with one out in the ninth inning. It was Sunbury's first win after seven straight losses.

Shutouts were registered in the other two games. Bob Vogel pitched a three-hitter for Allentown to defeat the York White Roses, 15 to 0. Jack Sanford scattered seven hits to give Wilmington a 7-0 victory over Harrisburg.

DROPO SETTING FAST PACE FOR BOSOX HITERS

(By RALPH RODEN)
(Associated Press Sports Writer)
Walt Dropo is off to a good start in his attempt to make Boston Red Sox fans forget Jimmy Foxx and Rudy York.

Not since the days of "Double X" and Big Rudy have the Red Sox presented such a robust hitting first baseman as Dropo.

Grimly determined to make the grade after fluffing his first chance last spring, Dropo is whacking American league pitching at a terrific 436 gait, tops in his league. The former University of Connecticut football, basketball and baseball star received his second opportunity early this month when Billy Goodman, Boston's regular first sacker chipped a bone in his ankle.

Dropo has let no grass grow under his feet since his elevation from Louisville of the American Association. He has pounded out 17 hits including three home runs and a triple in 39 times at bat.

Yesterday the 225-pound, six-foot-five husky drove out three singles to lead his mates to a 3-1 triumph over their old tormentor, Rae Scarborough, and the surprising Washington Senators.

Dropo, who failed to stick last year, is optimistic over his prospects this year.

What a difference between now and last year. I'm in much better shape, mentally as well as physically," he said recently. "Last year I actually ran myself down worrying. A couple of nights in New York I couldn't sleep at all. I think I've learned a lot in a year."

Yanks Nip A's
The victory moved the Red Sox, along with the New York Yankees, who also won, to within a half game of the league-leading Detroit Tigers. The Yanks edged the Philadelphia Athletics, 3-2, in a night game at Yankee Stadium. The Tigers and St. Louis Browns were idle.

Jerry Coleman accounted for all of the Yankee runs with a three-run homer in the fifth inning off Lou Brissie, who went down to his fifth defeat. Tommy Byrne surrendered eight hits, including a two-run homer by Sam Chapman in posting his second conquest.

Rookie Al Rosen belted a three-run, first inning homer to lead the Cleveland Indians to a 5-1 victory over the Chicago White Sox. The blow was Rosen's seventh of the season.

Ewell Blackwell turned in his finest performance of his comeback bid as he pitched the last-place Cincinnati Reds to a 3-1, five-hit victory over the Cardinals in a night game at St. Louis.

Home runs by Preston Ward and Andy Pafko plus effective pitching by Bob Rush enabled the Chicago Cubs to down the Pittsburgh Pirates, 6-3, in the National's only day game.

The Boston Braves, Brooklyn Dodgers, New York Giants and Philadelphia Phillies were idle.

JUNIORS WILL START DRILLS

The Gettysburg Junior baseball team, a member of the newly-organized Mason-Dixon league, will hold its initial practice Monday evening at 6 o'clock on the recreation field.

Coach George Gorman said today that all lads, between the ages of 14 and 17 and who will not be 18 before June 1, are eligible to seek positions.

The Mason-Dixon league will open June 3 with the following games: Hanover Kiwanis at Gettysburg; Woodsboro at Littlestown, and Taneytown at Hanover Legion.

At the conclusion of the 20-game schedule for each team a three-game series will be held between the league titlists and an all-star team from the other five teams under the lights on the Littlestown field.

Carlisle high school's unbeaten track team performed in expected style as it won its second successive South Penn conference title held under the lights on the Hanover high field Friday evening.

The winners amassed 61 points by coping eight first places. Chambersburg took second place with 44 points while the Gettysburg high Warriors, 13-time winners of the conference meet, were third with 30 points. Hanover was fourth with 26, Hershey fifth with 19 and Waynesboro last with two.

Today's Talk

By GEORGE MATTHEW ADAMS

SYMBOLS OF GREATNESS

The American artist, Robert
Henri, was not only a great painter,
but he was a great thinker. He liked
to roam and travel. Said he: "I
seek only for symbols of greatness.
They may be found in the eyes of
a child, in the movement of a gladi-
ator, in the heart of a gypsy, in
Ireland's twilight, or in the moon-
rise over the desert."

In the humble mind of a peasant
there may be found symbols of
greatness, as pronounced as any to
be found in the greatest of this
earth. Not all these symbols are ever
discovered. Like the flower that
"wastes its sweetness on the desert
air," many a symbol of greatness
remains dormant in many a human
being forever. But, perhaps not for-
ever! Who is to know?

Many a symbol of greatness, how-
ever, has been discovered by a
watchful eye, and brought to the
light of the world. Lincoln finally
discovered it in the silent, deter-
mined Gen. Grant, and so put
his trust in him. He also often dis-
covered it in many a mother who
came to him with the tragic story of
a boy soldier about to be shot. That
mother's love contained it all.

It's emergencies that reveal many
a symbol of greatness—greatness of
heroism and of sacrifice. History is
full of such instances. So is the
story of our everyday life, as re-
vealed in many a newspaper story.
Only recently I read of a mother
who shoved her child to safety, but
lost her own life.

If you ever visit the campus of
Yale University you will note there
the statue of Nathan Hale, with
those words of his, carved upon it:
"I regret that I have but one life
to lose for my country." It is tragic
that these symbols of greatness
sometimes need a war to discover
so many such heroes who might
never have been given lasting fame.
In the walks of peace, however, these
symbols of greatness may be daily
discovered, for they are scattered
everywhere!

POINTS GUN AT RELIEF STAFF

Lock Haven, Pa., May 13 (AP)—An
80-year-old man was held in Clinton
county jail today charged with
threatening to shoot up the Lock
Haven state relief office because his
relief grant was cut one dollar to
\$9.40 weekly. He was disarmed and
arrested.

Detective Sergeant William B.
Ryan, of the Lock Haven police,
identified the man as William Henry

Beidler, who lives in a cabin near
Haneyville.

Ryan said Beidler had written let-
ters to the relief office protesting
the reduction and visited the office
yesterday, waving a rifle.

"I warned you I would do some-
thing," Ryan quoted the man as
saying.

Ryan said that Albert B. Stam-
bach, relief director, grabbed the
gun barrel and pointed it downward,
while another member of the office
staff called police.

Beidler was committed to jail
charged with pointing firearms, as-
sault with intent to maim and surety
of the peace.

JAY COOKE

THIS is your land, your community and your
State. Your vote is vital. On May 16
there is to be held what may prove to be
the most important Republican primary elec-
tion in Pennsylvania's history.

JAY COOKE, front line Army combat veteran of World Wars I and II and
candidate for the Republican nomination as Governor of Pennsylvania, is a
prepared, experienced, trained and qualified leader who stands for clean gov-
ernment and is capable of meeting that responsibility headon.

THE history of Jay Cooke's family has been identified with Pennsylvania's
history during war and peace. His great-grandfather, the first Jay Cooke,
was the friend to whom Abraham Lincoln turned to successfully raise the funds
for the Union in the Civil War.

JAY COOKE, born in Philadelphia, has spent his lifetime as a successful busi-
nessman, banker, broker and soldier in his country's service. During World
War I he was felled by German mustard gas while fighting with the 79th Division.
During World War II his left eye was shot away by a German machine gun burst
as he led his battalion in combat in the battle of the hedgerows outside St. Lo.

HE is not only a Pennsylvania leader but is acquainted with world-wide con-
ditions which he last examined on the trip throughout war-torn Europe with
former Governor Harold E. Stassen, of Minnesota, when they visited 16 countries
together and held discussions with the leading figures of the world.

JAY COOKE managed the Pennsylvania campaign when Mr.
Stassen ran for the Republican nomination as President of the
United States, and was a delegate to the Republican National
Convention in 1940 and 1948. He was the Philadelphia leader in
the election of Arthur James, as Governor, and Robert Lamberton,
as Mayor of Philadelphia. Jay Cooke was the Republican nominee
for U. S. Senator in 1940, carrying all 67 counties in the primaries,
then polling more votes than the Presidential candidate, Wendell
Willkie, in November.

KEENLY aware of the responsibilities of leadership in our Com-
monwealth of 10 million persons, he pledges clean, just and
stable government, a real business administration, a balanced
budget, an end to deficit financing, and the continuation of the
Republican Party's long standing programs for clean streams,
mental health care, conservation, real encouragement for industry
and agriculture, and improved educational opportunities.

NO CHANCE OF SHARING BOMB WITH ALLIES

By DOUGLAS B. CORNELL
Washington, May 13 (AP)—Talk of sharing the atomic bomb with America's North Atlantic allies brought this hot reaction from Congress: Not a chance!

Among the men who would have to pass a law permitting such a move, there was consternation at the mere knowledge that the subject has been discussed by military officials in a preliminary way, even without approaching decisions or recommendations.

Senators and House members, Democrats and Republicans, cried out against letting any A-bombs get out of American hands.

Vinson In Favor
The lone voice in support of sharing was that of Chairman Vinson (D-Ga.) of the House Armed Services committee—and he put in an "if." Vinson said: "Our allies should have all equipment necessary to be in a position to undertake a worthwhile defense against any aggressor. If it is necessary for them to have the A-bomb, they should have it."

Of course, a lot of minds could change if we seemed to be getting definitely closer to war. But for the time being there obviously is no possibility that the lawmakers would consent to arming our cold war partners with atomic weapons.

Key members of the congressional Atomic, Foreign Affairs and Armed Services committees said in interviews that they are against it.

Can Deliver Quickly
For that matter, some of the military experts in the Pentagon are against it, on grounds A-bombs would be safer in American hands, with less chance for information leaks or for U.S. atomic weapons to fall into Russia's grasp.

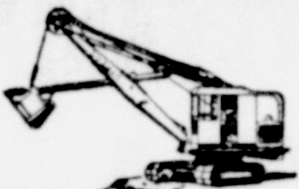

Rep. Elston (R-Ohio), a member of the Senate-House Atomic committee, said he sees "no great urgency about getting A-bombs overseas, because we can get them there quickly any time. But if the military authorities think there should be some there, I would go along with it, provided there is complete control by our own armed forces."

Senator Connally (D-Tex.) said that "I'd want to be mighty careful where we put our bombs." Connally is a member of the Atomic committee and chairman of Senate Foreign Relations committee.

REG. U.S. PAT. OFF.
by FREDERICK C. RUSSELL
member S.C.E.

With all these new kinds of grilles it's no wonder the shopper for new models asks "what's cookin'?"

Call For "Premium" Driving

It isn't anything you can get for the asking, like a tank full of high octane gas, but "premium" driving is what you'll need for the motor-er era ahead. It is a "plus" type of driving designed to meet a sizeable group of new problems on the agenda. Meanwhile whatever premium driving you can develop now will be of immeasurable aid in getting better results from your present car. Ordinary driving is about as much of a handicap to a sub-normal car as low octane gas is to its power plant. There is also a wide variation in driving standards due to cars being in varying stages of obsolescence. Your driving must compensate for this.

For some motorists "premium" driving is going to be a process of learning all over again. For the majority it will call for an investment in new techniques. Those who fail to see what's ahead and who are content with "regular" driving will find themselves having to drop behind the procession. It is going to be quite a trick to overtake other cars in the near future.

Why handicap your driving with methods that are full of knocks?

More Careful Checking

Sometimes a front-end alignment check shows the car to be in reasonable good shape, and yet results are not satisfactory. In such cases the chances are that there has been some slip-up in checking the car. For instance, if the shock absorbers bind and the car doesn't rock up and down freely, the frame may not come to a normal level every time the car is disturbed by inequalities in the road. It may just happen that at the shop things were normal. Another thing that will upset calculations is a bent steering arm which causes one wheel to toe-out excessively when turning a corner.

Well To Remember

Even if the king pins are not considered from a standpoint of their value in steering efficiency perhaps they will invite serious thought

when I mention that they support anywhere from 20 to 40 per cent of a car's weight.

If an exhaust valve is sticking or doesn't seat properly the engine won't backfire through the carburetor. The engine will simply limp. At normal road speeds the limp may not be so noticeable due to the fact that the valve is being pounded shut by the burning combustion gases.

Mechanic Joe Speaking:

"Some things about our cars are reasonably normal yet they can be extremely annoying. I have in mind the way a car will tend to steer funny and wander, when the rear seat is heavily loaded down. If such a heavy load is to be carried regularly the front-end caster should be changed accordingly."

"Naturally when the car is heavily loaded there will be less effective compression braking when going downhill. A way to offset this effect is to start the decline at a much lower speed."

"And a lot of knocking on hills is due to a stuck heat control valve which causes the mixture to over-heat and become too lean."

All forms of gas saving seem like a frail on first thought, which probably explains why so many people are

complaining of low gas mileage. One trick that many will overlook is the business of keeping the tops of the spark plugs clean; also the coil and the distributor cap. If these parts become greasy they will collect moisture which, in turn, causes leakage of high tension current when the motor is being started and warmed up. It takes a lot of extra choking to overcome this, not to mention use of the lower gears.

Lowdown In A Nutshell

Front wheels of the car are in a state of reversed camber when they are closer together at the top than at the bottom. The frontal view of the car gives the impression that the engine is going to fall to the ground between the wheels.

When an engine seems to act as if it is rolling, especially noticeable when it is idling, indications are that it is tired too early. And I don't mean you ought to tire it later in the day. It's timing is too advanced. Let's just a fancy word for anything that retards movement.

Caught Red-Handed

who have been puzzled over strange noises in the rear end will be happy to learn that the trouble has been traced to the springs and their inter-pads or inserts. These are the layers which go between the spring leaves to help maintain better spring action and to damp out road noises. In some cases these pads were waxed. The experience seems to be that the wax cakes these pads and invites a cracking noise between the spring leaves and the pads. This, of course, is amplified by the springs and the car's frame, and then the driver begins to hear his hair.

Remedy seems to be to graphite the pads or to replace with a different kind of liner.

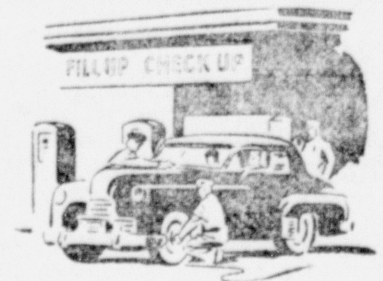

For Best Tire Results

In mounting inner tubes and tires always lubricate the tube first, then partially inflate the tube so that it will be rounded out. After the valve has been centered and pulled firmly

against the rim, and having made sure that the tire is so centered on the rim that the beads are out of the wall of the rim, inflate the tire to the recommended pressure. Then—and this is the important step sug-

gested by the tire people—deflate the tire before again inflating it to the desired pressure.

President Roosevelt's Board said—**NO!**
President Truman's Board said—**NO!**
Still the leaders of the Railroad
Firemen's **"STRIKE!"**
Union say—

This ridiculous strike is an affront to every citizen of the nation. It's not for more money. It's not because of hours. It's only for soft **feather-bedding** spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders **"horse-feathers"!**

• The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

This demand of union leaders for additional and unnecessary firemen to ride in diesel locomotives was rejected—after months of hearings—by a Board appointed by President Roosevelt in 1943.

It was again rejected in 1949 by a Board appointed by President Truman.

Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

Union Leaders Defy Intent of Law
The union leaders helped write the Railway Labor Act. Yet in an attempt to jam through this scheme of pure

"feather-bedding" by leading the members of their union out on strike and threatening paralysis to large areas of the nation, they are defying the spirit and intent of the very law which they helped to create.

This strike is not for higher wages. It is a strike to force the railroads to employ many more thousands of firemen who are not needed! It would be indefensible waste. The railroads have refused to place this additional and unnecessary burden on the public.

But more important than any other consideration, is the action of these few irresponsible union leaders in seeking to force a crippling strike upon the

This strike is one of the silliest strikes in history!

What are these reckless union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employees on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

What's the strike all about? If the union has its way—what happens? The present members of the union won't get one cent more pay. They will merely have been assessed for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen.

This is certainly one of the silliest strikes in history!

nation for their own selfish purposes.

There is no other possible answer to such a demand but "No!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

Police Capture Killer's Partner

Camden, N. J., May 13 (AP)—Detectives early Friday captured 24-year-old Paul D. O'Neill, named by confessed killer William R. Toy as his partner prior to Monday's double murder on a West Philadelphia used car lot.

O'Neill was seized in a Camden restaurant as he finished a cup of coffee. He was unarmed.

Capt. James Kelley of the Philadelphia homicide squad said "we are satisfied O'Neill was not with Toy Monday night."

But he added that O'Neill has confessed participating in four of the 26 earlier holdups that Toy has confessed staging since January.

No charges have yet been filed against O'Neill.

Toy is charged with murder in the slaying of Alexander Martin, 46, used car lot manager, and Daniel Neary, 50, who was at the car lot with a prospective buyer.
